This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

THE
SOUL'S INQUIRIES
ANSWERED

The Soul's Inquiries Answered.

TO THE READER.

The blank diary is intended for a treasury of the autographs of your friends under their respective birth-days. But not for that only.

In one copy of this little book, kept for your own private reading, the diary will, I trust, be used for brief, but grateful, records of GOD'S *merciful dealings with you and yours.*

Well may the mere mention of HIS *mercies call forth the exclamation,—'How great is the sum of them! Bless* THE LORD, *O my soul, and forget not all* HIS *benefits.'*

That you may not forget them, that their memory may not be as the glorious beauty of a fading flower, or as the morning cloud, and the early dew which passeth away, I offer you this little book wherein to write them for a memorial; praying that it may enable you the better to remember all the way which THE LORD *your* GOD *has led you; and that* HIS *mercies may be to you new every morning.* G. W. M.

A NEW YEAR'S PROMISE.

IN the first month, the first day of the month, the waters were dried up from off the earth.

And as I have sworn that the waters of Noah should no more go over the earth, so have I sworn that I would not be wroth with thee, nor rebuke thee.

For the mountains shall depart, and the hills be removed; but MY kindness shall not depart from thee, neither shall the covenant of MY peace be removed, saith THE LORD that hath mercy on thee.
